DOI: 10.17932/EJOH.2020.022/ejoh_v01i1009

From The Editor

It is with great pride and enthusiasm that I invite you to read the EURAS Journal of Health (EJOH). A great amount of labor has gone into the development of EJOH and I believe you will see that effort is reflected in our issues. With double-blinded peer review, EJOH is able to open up an advantageous platform for qualified manuscripts providing the readers with keen perspectives.

I am extremely proud of and grateful to our editorial and scientific advisory board members. I consider myself fortunate to be able to draw upon their individual and collective knowledge, experience and judgement. As you examine the organization of the boards, you will see a remarkable breadth of disciplines, skills, and backgrounds. Without the guidance, support, and feedback of the board, it would have been impossible to offer the selections you will find in this issue.

I would like to thank our authors who shared their valuable works with our journal. Together we will work towards making EJOH a truly influential publication. Original articles, case reports, brief reports, letters to the editor and special issue proposals are always welcome.

With my best regards

Prof. Dr. Zeynep iğdem KAYACAN
